401K Program Information

The 401K program that KANN Enterprises currently offers is a retirement account. This account does ***not*** function like a personal saving account where you can take money out any time desired. One benefit to this account is that KANN Enterprises currently matches a portion of the money that is deposited into this account.

For more information on this program contact Shirley Kosciak at 815-609-7170 x201.

All Managers—Let's strive to lower our accidents at your respective locations in 2007. Our 2006 accidents were well above industry standards. Have your supervisors continue to stress safety in the pre-shift meeting each day. Injuries effect each location in a negative way and also affect the company as a whole. Let's do what we can to make 2007 a better year in regards to accidents. Work **SMART** and work **SAFE**.
